Enabling them to make a positive contribution to UK Healthcare

We provide regular insight on the healthcare business and regulation through our daily updates and regular insight reporting. We also work closely with leaders in the NHS and Government to ensure that we can make a difference to UK healthcare.

About our Commercial Associate Programme

The IHPN Commercial Associate category offers your organisation the opportunity to build a better understanding of the independent healthcare sector, connecting with decision makers across the industry and the potential to open partnership opportunities with our members.

The UK independent healthcare sector is a £16 billion market delivering healthcare services to NHS, insured, domestic self-pay and international patients. We have around 100 members who cover an array of clinical services including hospital care, diagnostics, primary and community care, clinical home healthcare, ophthalmology, and insourcing.

Our Commercial Associate programme is for organisations that do not provide direct clinical services but provide goods and services to healthcare providers who share our vision of providing consistently high standard of patient safety and quality as well as enabling our members to make a positive contribution to UK healthcare.

Commercial Associate Programme Cost: £3,000 per annum

(Charged on a pro-rata basis on time of application)
